Department Description
The department named PPU (Project and Process Unit) supports Atradius' transformation journey in partnership with the whole Atradius organisation, steering business change through innovation and new developments in information technologies and process improvement. Besides portfolio management, the department contains teams for project management, product owners, (business- and process-) analysts and business enterprise architecture.

Job Description
The Senior Business Enterprise Architect is responsible for understanding both business and IT aspects of a business domain and integrating them into a cohesive Enterprise Architecture. Develop a clear understanding of the AS – IS architecture, including all challenges faced. Analyze the company strategy and align it with the current architecture to define the desired future (TO – BE) state. Participate in global IT programs and project initiatives across various domains

Deliverables

- Project Start Architectures (PSA) / Program Initiation Architectures (PIA)
- Risk and impact analysis
- IT Landscape roadmaps
- Reference Architectures
- Advisory reports with cost-benefit analyses
- A vision of (business) enterprise architecture at Atraidus
- One way of working for all enterprise architects
- Training material for architects and non-architects

Top 6 Main Activities

- Participate in strategic projects where enterprise architecture is part of scope
- Maintaining various architecture domains (reference architectures)
- Develop and maintain Enterprise Architecture roadmaps (incl. reviews)
- Collaborate with stakeholders
- Manage architecture governance
- Participate to the professionalization of the enterprise architecture discipline

Top 7 SFIA Skills

- Business and Enterprise Architecture (STPL - Level 6)
- Information Systems Coordination (ISCO)
- Innovation (INOV)
- Business Process Improvement (BPRE - Level 5)
- Strategic Planning (ITSP)
- Change Management (CHMG)
- Stakeholder Management (RLMT - Level 5)

Mandatory Qualifications

- Master degree in business management or computer science
- 10+ years of relevant experience in (management) consulting, business or information/ application architecture
- Demonstrated proficiency in architecture modelling tools and frameworks (e.g. TOGAF/ArchiMate)

- Business domain specific design and/or change management experience in one of the business domains of Atradius

What do we offer?

- A dynamic, international and challenging work environment
- Training and support to reach your full potential including the opportunity for continuous professional development
- Attractive terms and conditions, including competitive salary, pension package and a range of flexible benefits and rewards
- Challenging tasks with individual development and training opportunities

Equal opportunities for all
The success of our organisation stands with the quality of our people and the ideas they have. Insights and innovative solutions for our customers are the result of an interplay of cultures, knowledge and experience. That is why diversity is extremely important to Atradius. To ensure that all colleagues within Atradius can develop their qualities, we promote an inclusive culture in which everyone feels involved and valued. We encourage and welcome everyone to apply to our positions.
